Committee Secretary

Senate Standing Committees on Rural & Regional Affairs & Transport

PO Box 6100

Parliament House

Canberra ACT 2600

**Re: Competition and Consumer Amendment
(Australian Food Labelling) Bill 2012 (No. 2)**

To the Committee Secretary:

It is vital that Christine Milne's Bill into the Senate to make the origins of our food transparent, and which should ensure we are all fully and fairly informed about the origins of food and food ingredients, on the labels is supported.

It is necessary to support Country of Origin Labelling in order to protect and promote this country's food supply and our farmers and their farm land and processors of food grown locally in Australia.

Government and industry are committed to global free trade in food which can come from anywhere in the world and they allow labels to deceive us.

I prefer buy food which originates from local growers and processors but cannot rely on food labels with misleading claims about the origin of food ingredients and fresh produce.

Please support the above Bill .

Sincerely.

Keelah Lam
