**Re: Chronic Disease Dental Scheme**

I wish to address specifically the matter in relation to the audit of Dr Wilma Johnson, city of

I first met Dr Johnson when I required urgent dental assistance. Due to a bad experience as a child my extreme fear of Dentists was dramatically heightened by the severe pain I was in.

Dr Johnson greeted me with a warm smile and a gentle demeanour. My treatment was fully explained to me in a professional and a courteous manner by Dr Johnson which resulted with my quickly gaining a relaxed state of mind and body. I immediately enjoyed full confidence with Dr Johnson's abilities and my respect for her as a professional has no bounds.

I find Dr Johnson's integrity being under question appalling and unfounded. I believe it critical she be allowed to continue treating patients without harassment .

Dr Johnson is a honest, hard working , competent and skilful dentist , as a patient she has my full support in fighting outrageous claims made against her and encourage her to rigorously defend her good name.

I invite any future correspondence in relation to this matter.

Yours truly,

Oksanna Cooper
