

Subject: value of ABC
Date: Friday, 9 September 2011

Dear Senate enquiry Members,

I have been a regular listener to ABC Radio National for many years and find it informative, educational and gives one a sense of Community. It would be an enormous loss to the community if funding was cut in a time that we really need information that is accurate and diverse.

The importance of good radio and television being able to educate and extend the mind rather than limit and give a narrow focus to events can not be underestimated for a healthy society.

Yours sincerely,
Kay McWilliam
