

Inquiry into Industry structures and systems governing levies on grass-fed cattle

Submission

Committee Secretary
Senate standing Committees on Rural & Regional Affairs & Transport
Parliament House
Canberra ACT 2600

Good afternoon,

I would like to make a brief submission regarding governing the collection and disbursements of marketing, research and development levies with regard to the sale of grass-fed cattle.

It is my opinion that the same structure should be adopted as has been implemented in the wool industry for many years, for some transparency and democracy. Sheep levies should also be implemented in the same way.

Thankyou.
