

Respected Sir/ Madam

My name is .....i came to Australia for the bright future in 2005. I have done studies and everything else to get the parmanent residency. Me and my of my friends have spent most vital time of our lives here as we all know the age between 23-30 is the most vital stage of life and this is the time when we have to settle down in the life. We all have been waiting for our permanent residency from last 2 years and now by bringing in the new rules and legislation in you are doing nothing but playing with not only the our futue but also with lives of our parents. So Sir/Madam by imposing this new law you will send the future of thousands of youngsters in deep dark sea which i think not acceptable at any leval. We are the asset for Australia as we have always played the role to boost the economy of this country. So pl dont do this to us and to our family members.I am also sending you my contact details in case you want to get in touch with me.

HOPE YOU WILL CONSIDER OUR APPEAL AND WILL NOT PASS THIS BILL IN  
YOR PARLIMENT.
