

Dear Sir,

Kindly consider granting GSM Visa for those Commercial cookery students who have completed 2 years mandatory study in Australia and are now serving in the same occupation there. The employers in Australia (Almost all) are reluctant to sponsor their Commercial Cookery student employees as it will increase their financial liabilities for they will have to pay them more wages as per law. Presently, these students are loosing in both ways. i.e. they receive less wages now and will also denied GSM Visa. Hence kindly consider their case for granting them GSM visa sympathetically and make the proposed rules/amendments be applicable for future students./applicants of Commercial Cookery.

With kind regards.

Yours Faithfully,

Jagbir Singh Sarpal
