Subject: Submission to the Inquiry into the National Disability Insurance Scheme Bill 2012
Date: Friday, 21 December 2012 7:23:57 PM

Please consider this email a formal submission by me to the Senate Standing Committee on Community Affairs Inquiry into the National Disability Insurance Scheme Bill 2012.

The current disability system has many problems that need to be addressed.

My daughter has a dual diagnosis along with mental illness .will the system include her ?

The main features of the NDIS that will make a difference to the community are:

Better access to education and work opportunities, Increased ability to coordinate services to suit the "whole" person/family, Older parents and families will not worry what happens when they can no longer provide support

The most important services for the NDIS to provide are:

Support for families and carers, Accommodation options, Positive behaviour support and psychological services

I support the introduction of the NDIS.

i support that huge changes need to happen for famlies and people with disabilities and Mental illness

I agree for my submission to be made public

Regards,

Ms Patricia Chalmers
