

At my appearance before the Committee of Inquiry in Melbourne yesterday, I was asked for further details on the following:

- **Details of financial planners who have become MFAA members**

Unfortunately our membership records do not record that information so I will have to rely on the 'guesstimate' I provided yesterday.

FYI all new applicants have to satisfy the MFAA Professional and Educational standards before being admitted. Holding financial planning qualifications does not count towards MFAA admission criteria.

- **Details of MFAA Certified mentor program**

This has been running for about 3 years. To date there are 93 Certified mentors across Australia. Currently there are 612 members who have either passed through the Certified mentor program or are currently participating in it as mentees.

**Phil Naylor**  
**Chief Executive Officer**
