

Les Johnson

To the Secretariat,

I write today re the National Redress Scheme.  
It is my view that all Institutions should participate.  
Also it is important that all States should do  
what is right and proper.

No amount of redress can take away the pain  
away not only for us victims but we should  
not forget our loved ones and families who  
have suffered with us, and shared the burden.

I am most grateful to the Commission for all  
their untiring efforts to get us this far.

I belong to an Advocacy Group called Clan,  
who have been with us all the way.

Sincerely yours.  
Les Johnson
