

Hello Sir/Madam

I was the student of the Hospitality Management (Comm. Cookery). I finished my study in November 2009, and had applied for the TR. But the new Bill which going to pass in parliament will really spoil our future. We choose the course which was really in demand in Australia. Now when we go back to our country these certificates are worthless. I don't understand what I will. Since I heard news I got depressed. It's a mass future spoiling bill please think about those 145000 student who come with their dreams to settled in Australia.

Thanks

Bhavin
