

Dear Sir/ Mandan:

For: Concern about Migration Amendment (Visa Capping) Bill 2010

My name is I had applied GSM application and ready to waiting for two years for permanent resident. However, I had heard some new about the bill of the amendment of Migration Amendment (Visa Capping) Bill 2010. I feel very concern and disappointed about this.

Sadly, I think it is a horrible new for me and all the people who are holding a GSM application and ready for a new life in this country. We had spent huge money and time in here and studied hard for at least two years. Some of them had working so hard for settled down and bought property here. We want to live in Australia, and believe we can have a better life and also make contribution to Australia. If this amendment was approved, it will have worst impact to our life and ruin our dream. So I urgently please you not to pass this new legislation.

However, understanding the problems government face related to economy downturn and unemployment, I believe it is reasonable to take some actions to improve the disorder of immigration issues as long as the process been taken gradually. But, it is very irresponsible to axe the number of application waiting list and drive people home, also it is unacceptable. Even the intention of putting it on the broad is very dangerous. The point is we are not supported to suffer from the mistake of other's people who make the previous legislations.

I had notice there are some changes in the migration policy which had already generate enormous panic and chaos among oversee students. Some students have to back to own country without finishing their study. It is tragic that their experience of study in Australia is not nice. Luckily, I finished my two years study a bit earlier, so that I can stay here. Otherwise, I already been one of them, don't even have a chance to speak out for myself. The reputation of Australia and government will be damaged irretrievably, if the law been change to give the minister the right to capping the GSM number and terminate our applications. It suggest us that the department can send us home, no matter when and which class of GSM we are in, even we all meet the criteria for immigration.

With this letter, I express my worry to the new amendment of Migration (Visa Capping) Bill 2010. I strongly demand members of parliament to considerate our situation and rights, keeping the consistency of the policy, disapproving this proposition which will damage the life of thousands of people and this country we both love to live.

Regards
