

Preservation of the ABC

Dear Sirs

I am an ordinary listener/viewer of ABC programs and I am disturbed by the present trends in ABC management.

I am opposed to the outsourcing of programs, the ABC should have adequate resources to produce its own programs.

I deplore the closing of the Natural History Unit, "Collector" and the proposed closing of "New Inventors" The trend towards commercialism makes me uneasy, I cannot stand "commercials". They are bad enough on SBS.

Yours faithfully
Ronald R. Ewington
