

Dear Sir / Madam

I have bought a sizeable chunk of Telstra shares in the last float because I, like so many others thought this can't go wrong. Of course I have been proved wrong on a grand scale!!

I find it disgusting to think that one federal government could perpetuate this almost fraudulent behaviour on an unsuspecting and trusting public. But for the incumbent to step and slap us all again is infuriating. And to justify it with some pitifully spurious reasons makes it worse.

Yours in disgust
Wayne E. Griffith
