

## THE SENATE

### Senate Economics References Committee

#### Inquiry into Financial regulatory framework and home ownership

#### Answers to written questions on notice from Mr Saul Eslake, asked by Senator Andrew Bragg on 24 October 2024

**Question:** *What were the Super Members Council's suggested changes to your draft super for housing report?*

- a. *Which changes did you accept?*
- b. *Which changes did you reject?*

**Answer:** *I do not disclose either the gist or the substance of correspondence between my clients and me. To do so would represent a breach of the confidence which all of my clients expect and of which I assure them in my dealings with them. I can only repeat what I said in my response to Senator Bragg's question during the hearing on Thursday afternoon, that no-one tells me what I can or must say or write, or what I cannot or must not say or write; and that all of the words which are in the report which I wrote for the Super Members Council are words which I chose to write, and for which I accept responsibility.*
