

Dear Parliament Members,

My name is Dr Keivan Davoodi and I am an Iranian born Australian citizen currently residing in Shepparton, Victoria. I am submitting this letter to sincerely request the ongoing recognition of Islamic Republic Revolutionary Guard Corps (IRGC) as a state sponsor of terrorism. IRGC is a foreign state entity that has directly and indirectly prepared, staged, strategised and conducted terrorism all over the world including within Australia. IRGC directed at least 2 attacks including arson of Lewis' continental kitchen in Sydney and Adass Israel Synagogue in Melbourne with ASIO having determined many more such attacks by IRGC and Iranian government as a whole. The most glaring violations of human rights and terrorism however are currently taking place by IRGC against Iranians within Iran. There are reports of at least 16500 deaths, 8000 blinded and around 300000 peaceful protestors injured during 2026 protests in Iran. The IRGC has entered hospitals to fatally shoot those protestors wounded, or to kill and threaten the medical team providing care to injured protestors. These atrocities have all taken place under a total digital black out which has now persisted for more than 300 hours. Furthermore, IRGC has funded militia groups from Afghanistan, Pakistan and Iraq including Hashd al-Sha'bi to shoot to kill peaceful protestors in Iran. Concerning the Middle East, IRGC has provided significant financial, military and political support to both Hezbollah and Hamas. I, Keivan Davoodi, sincerely request the ongoing recognition of IRGC as a sponsor of terrorism within Australia. Thank you for your fair democratic process and being the voice of peace and progression worldwide.

Kind regards,

Dr Keivan Davoodi
