

First of all I appreciate that anyone can be part of this activity and able to send the feedback.

So here I am going to give my suggestion and this is going to be purely my thought. I personally believe every situation has its own pros and cons, however I believe in this situation I consider **Not pass** this bill as we are suffered with international image after the incidents that has happened and this option will increase them.

I am not sure I am right or wrong here, however I have given my thoughts.

Yours sincerely,

XYZ
