CANBERRA ACT 2600

Dear Committee Secretary,

This letter is to provide a correction to information provided at the ATO's appearance before the Joint Committee on Law Enforcement on 23 November 2016. I refer to information provided on page 9 of the Hansard.

In response to a question asked by Senator O'Sullivan regarding working with law enforcement and surveillance, I advised that "in our most recent illicit tobacco cases is one where we did respond with the Victorian police. There was cannabis growing on the premises". I would like to note a correction for the record. **The Victorian police had intelligence** that cannabis was growing on the premises.

Yours sincerely

John Ford
