Submission to Migration Amendment (Visa Capping) Bill 2010

Dear Committee,

If your occupation does not now appear on the skills list (which has been reduced from 400 to 181) then your genuine application could now be declared null and void. Needless to say “persons” is no longer there! If this happens and, a “person” who is already here in Australia, you will be given 28 days to leave the country. This will include families who have settled here, bought houses and have children in school, and like someone who has been here for 4 years or more, done everything required of them to remain here while their visas come through.

This is **GROSLY UNFAIR** and we must not allow this to happen.

Yours sincerely,
