Location Diagram

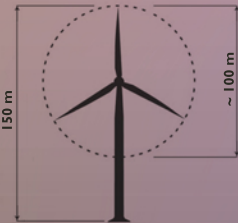

Notes

Location of Wind turbines have been digitised from plans publicly available at the time of survey.
Elevations of the Wind turbines are based on 10m contours.

Photomontage view taken 25m to the north of Transfield view

View 2

The simulations are based on an indicative turbine arrangement.
These simulations are to be used as a rough guide only.
The wind turbines used in the simulations are standard dimensions wind turbines and may not reflect the final built outcome.
