Parliament of Australia Senate

Canberra

**Senate Committee into the rollback of the 2006 Shared Parenting reform**

Dear Sir/Madam and esteemed Committee Members I am writing you to strenuously oppose any move to repeal the 2006 Shared Parenting Law Reforms of which I was a part on the basis that they have in their present form consistently reduced the lethal danger to our children by some fifty percent as cited in the NSW Child Death Team's Annual Report.

I earnestly believe that to repeal this Legislation would result in an appalling outcome for our children and a return to pre 2006 child homicide rates on record before the introduction of this ground breaking Legislation which reunited responsible loving fathers with their children.

Yours sincerely,
