

Dear Senators

I would dearly love to see a 10 cent deposit on all drink containers as a way of cleaning up our country and ensuring that containers are recycled. When my local supermarket put a gold coin deposit on shopping trolleys, overnight there wasn't a stray one to be found in the whole town. Previously they were dumped anywhere. Deposits work. 10 cents may not encourage adults to 'do the right thing', but I'm sure young people will find it a worthwhile exercise to collect and make some money as I did as a child. It makes so much sense; a /*win-win situation!

Yours sincerely,
Barbara Ward
