Question

I have great concerns over the application forms and process that is required by the Government.

My main concern is why we can not submit our paperwork from the Royal Commission, even though it says we can attach them. But for us to rewrite what happened to us and complete section 2 of the Experience of our sexual abuse, along with the impact that it has on our life from then to now. Plus to re do a Statutory Declaration, even after the Torana Police force has one the Royal Commission. Does the National Redress not trust or believe the Police, the Royal Commission, the Court's and us. We are taking a step backwards into the hands of those who abused us. Will the National Redress Committee supply the CAT'S team, a Neurologist and have a Ambulance on stand by along with the Alfred Hospital for me as I try to rewrite my life happenings. They the Royal Commission changed the Court setting and allowed a Specialist to be near me, if I went into Static Seizures and Heart Attack. I was not happy at the session of trying to settle, when I get told that I do not know what Sexual Abuse is or what the Private Parts are. I ended back up in the Physic Ward, because of this. So I need to know will I be safe, and that Centrelink will not pass on information like they have done in the past.
