

ABC cuts

To whom it may concern,

I am writing to express my concern about changes to content on the ABC. More and more production seems to be done outside of the ABC with less in house production.

I do not feel the quality of these shows is as good and there is a loss of editorial control over the outsourced programs. It may seem to save money on wages/cost etc but in years to come the ABC will be competing with the commercials and the charges of the out sourced programs will rise. This has been tried in the UK and the BBC are now moving back towards in house programs.

Please don't let good quality programs cease to exist.

Yours sincerely  
Kate Randell
