To Whom It May Concern,

I'm writing this letter regarding to the new visa capping program.

First of all, please allow me to introduce myself. I 'm a former international student who have completed the Bachelor degree in Macquarie university, and now have a pending 885 visa application under GSM.

During my full time study period, I have attended extracurricular activities as much as I could to get myself involved into Australian society as well as enhanced my English language skills . I worked as a volunteer time keeper for Australian Masters Swimming Club to made my part of contribution to local sports community. Meanwhile, I also did the best as I could for my studies , I have got GPA 3.2 out of 4 for overall units required for my degree and help other students on their studies as well.

Soon as I completed my degree , I have been employed in a large-size IT world-wide corporation Australian branch as a full time accountant from Nov 2008 until now. I 'm glad that I have this opportunity which enable me to make lots of friends , to put what I've learn from textbook into real practice, to enhance my professional knowledge and offer me a pass-way for CPA qualification, to enable me understand and involve myself more into Australian's multicultural society. I 'm also glad that I'm eligible for medicare health cover and known that it's my responsibility to be a loyal tax payer.

Currently I am attending the courses for Masters degree in UNSW as well as CPA professional membership program. My dream is never stop, and I will pursuing it continuously by putting the effort in. I do concern about how society recognize me as a productive unit as well as what I can offer back to the society as whole. I believe the “ two way road “ will works better than the “ one way road” ...

I believe that I have already settled down in Sydney with my husband, we both working in full time basis and payoff the house loan as well as the living costs together. I cannot imagine what will happen afterward if my application is being capped. Does it mean that I have to resign from my job , sell my house , leave my studies in half way and depart from Australian within 28 days ?

I love Australia , I have had a great time for the past 5 years since I was 22 years old first came to this country , and I'm fully confident with my future life as productive immigrant for Australia.

Please give a serious consideration to visa capping program, and to people who like me with similar situations.

Thanks for your time to read this letter. Looking forward to a fair and positive outcome.

Yours faithfully,
