Dear Sir/Madam,

The "Wind Farms" have been a great asset to our community.
As a citizen of this area I am in full support of these.

Landowners are very positive having them on their property. Noise is of a minimum as the animals graze quite unperturbed near them.

I have never heard of any health issues.

Pacific Hydro has provided extra job opportunities into the community.

They also have been very generous. They supported a community project that I was involved in - that was helping to support the youth in the area.

Thanking you

yours sincerely

Murray Woods
