

Dear Sir/Madam,

My name is Harpreet Kaur. I have been in Australia for last four years. I have lodged an application for general skilled migration visa 886 in end of the 2008. I am waiting for the decision of my application for almost year and half. I think it is very unfair to introduce a law like this now, which says that immigration terminate our application at anytime. I have spent four years of my life in Australia and have seen my future in Australia. I do not get job in my proffestion because every employer wants to hire the permanent resident. I am waiting for my permanent residency so I can become a hairdresser. My parents have invested so much money on me so I can get a better future in Australia.

I hope you will consider our future.

Thank you very much for reading my e-mail.

Name- Harpreet Kaur
