

SUBMISSION

This Corporation was (in it's entirety) '*sold*' to public ownership by the '*then*' Government of the day . . . who extolled the '*value*' and encouraged *pensioner* investment . . . so, as the Government is *always worthy of trust* . . .

They Believed . . . They Bought . . . and '*Lost 60% + of their outlaid funds*' (. . . *and the Government said 'thanks'* . . . *as it most profitably, lodged those funds in the bank*).

This *NOW* Government seeks to *re-new control* of the Corporation '*wholesale*' entity . . . vowing an intent to '*achieve this objective*' . . . without regard to the measures required, or such necessary processes being invoked, that will achieve, and fulfill, it's '*decreed purposes*'.

Deliberate, '*intensive coercive pressure*' is being *politically applied* on the Corporation . . . so as to *unjustly enforce* . . . a conforming to, and complying with . . . stringently expressed Government demand.
(*and the-hell-with- accepted -Corporative-Law . . . that's just for the private sector!*).

Government has it made *abundantly clear* to the Organization . . . should they find inability to *equitably co-operate* . . . a procedure of '*Compulsory Acquisition*' will be en-acted . . . with the intent '*to-arrange-this-transition*' . . . *at no cost to them!*

Predominately, '*Age Pensioners*' (*again, Government Trusting*) own this Corporation . . . yet the '*objective aims*', and '*stealthy behavior*' of this *questionably ethical* parliament . . . knowingly, will cause a new '*Government inspired disaster*', with the results for them, the Pensioners' . . . *being yet, another unaffordable loss!*

This apparently acceptable (*to them*) Government conduct . . . reflects an *abominable behavioral standard and ethical practice* . . . *that can reasonably be perceived as,* and *also interpreted to be* . . . undisguised '*stealing from the Shareholders*' . . . *and as such , it sets an example* that is so transparently obvious to the community of this Nation . . . and engenders the truly *unhealthy* attitude . . . '*if it's good enough for them*' . . . **well then . . . 'it's bloody good enough for me too!'**

Politicians should '*present*' as community '*standards setters*' . . . exhibiting, to the entire electorate, manners reflecting *honesty, integrity, and respect* . . . plus *leadership* . . . **with accolades . . . not expressions of despair, humiliation and disgust.**

Yours Sincerely,
81 year old (Telstra Shareholder) Age Pensioner,

Geoffrey Thompson (Signed by myself).
