

Dear Sir

My name is Yiming Li. I graduated from Monash Uni in master of business systems and submitted my 885 VISA application with my wife in July 2009. After that I work as an area manager in Tel.Pacific until now.

When I heard the visa capping I feel a little bit nervous, because I am scare my application will be cancaeled. I love my job and I love Australia, I hope I can stay in this beautiful country forever. Besides, me and my wife are going to have a baby in this year. And I think I have got 120 points which should be no problem to get the permanent residence visa. I am not complaining, I just tell you what I am thinking. Please consider my feedback.

Best Regard  
Yiming Li
