

Senate Select Committee on Adopting Artificial Intelligence

Responses to Questions on Notice

Amazon Commercial Services Pty Ltd and Amazon Web Services Australia Pty Ltd (AWS) (collectively, Amazon) provide the following responses to questions on notice which arose during a hearing held by the Senate Select Committee on Adopting Artificial Intelligence (Committee) on 16 August 2024, as well as additional written questions Amazon received from the Committee's secretariat on 20 August 2024.

Questions on notice received during the Committee hearing on 16 August 2024

Question 1

Senator Darmanin asked Amazon's representatives to take the following question on notice:

"In Australia there are some people calling for reforms on reasonable limits on worker surveillance. . . Is this something that Amazon would support given you're not currently doing that?"

Our focus is on supporting our teams and delivering for our customers, not monitoring workers. We therefore are supportive of reasonable limits.
