

Australian Government

Department of Social Services

**Finn Pratt PSM
Secretary**

Senator Rachel Siewert
Chair
Senate Standing Committee on Community Affairs
References Committee
PO Box 6100
Parliament House
CANBERRA ACT 2600

Dear Senator Siewert

I am writing in response to your request of 4 March 2015 for further data to inform the Senate Community Affairs References Committee's (Committee) inquiry into the recent Commonwealth community services tendering process by the Department of Social Services.

The information contained in **Attachment A** and corresponding appendices aims to address the information you have requested on behalf of the Committee. I trust this information will be of assistance.

This supplements the formal submission to the Committee that was provided on 23 March 2015.

I look forward to the recommendations and findings of the Committee.

Yours sincerely

Finn Pratt

 April 2015

Encl: Attachment A - Response to Questions from the Senate Community Affairs
References Committee

Responses to questions from the Senate Community Affairs Reference Committee request of 4 March 2015

Request 1: *A breakdown of the program funding nationally – with a comparison between 2013-14 and 2014-15 budget allocations.*

Broadbanding of programmes in the 2014-15 Budget streamlined the Department of Social Services' (the Department) programmes and grants. This changed the structure and composition of the Department's outcomes and programmes, bringing together 18 programmes from five former departments into seven streamlined programmes based on common social policy functions. As a result, the 2013-14 and 2014-15 Budget allocations are not comparable between historical and new service delivery arrangements. The diagram at **Appendix A** outlines the programme structure under the *New Way of Working* for grants.

The reduction of around \$270 million to the Department's grants funding is the result of Government decisions made in the context of both the 2014-15 Budget and the 2014-15 Mid-Year Economic and Fiscal Outlook (MYEFO).

Note that the \$30 million returned to Budget in MYEFO was a "decision taken but not yet announced". As such, the breakdown of this measure was not published as part of the 2014-15 MYEFO papers or Portfolio Additional Estimates Statements.

Further information on the allocation of the \$240 million in savings made at the 2014-15 Budget is provided in the Department's 2014-15 Portfolio Budget Statements, at page 36, table 1.2. A summary of which is also reflected below:

OUTCOME	2014-15 (\$m)	2015-16 (\$m)	2016-17 (\$m)	2017-18 (\$m)	TOTAL (\$m)
1. Social Security	0.000	0.000	9.222	9.453	18.670
2. Families and Communities	26.058	42.190	45.906	35.943	150.100
3. Ageing and Aged Care	25.084	13.933	14.857	13.624	67.500
4. Housing and Homelessness	0.700	0.800	0.800	0.800	3.100
5. Disability	0.090	0.180	0.180	0.180	0.630
TOTAL	51.932	57.103	70.965	60.000	240.000

Request 2: *A breakdown of the program funding by state – with a comparison between 2013-14 and 2014-15 budget allocations.*

The 2013-14 and 2014-15 budget allocations are not comparable because of the broadbanding of programmes in the 2014-15 Budget.

However, to assist the Committee, a breakdown for 2014-15 has been provided at **Appendix B**, with funding for 2013-14 provided at the activity level at **Appendix C**. Note that funding is allocated to the state where the head office of an organisation is located. This may not always be where services are actually delivered.

Request 3: *A list of providers who have accepted the funding by service area and the total allocated to each provider.*

A list of providers who have accepted the funding by service area is provided at **Appendix D**. Service areas are mapped in line with the Australian Statistical Geography Standard (ASGS) at the Statistical Area 3 (SA3) level. There are a total of 333 regions at the SA3 level in Australia. The determination for a SA3 level is a region with populations in the range of 30,000 – 130,000.

The Department has introduced the ASGS to provide consistency in the way service areas are described across most programmes. The ASGS is more stable than other boundary sets and is being used by an increasing number of agencies for improved service integration and policy analysis. The funding allocated to each provider is at **Appendix E**.

Request 4: *A list of providers who received grant funding in 2013-14 by program area, state and service area.*

Appendix C provides a list of the 2013-14 organisations by activity and state. The funding is allocated to the state where the head office of an organisation is located, which may not always be where services are actually delivered. Service area information is not available for the 2013-14 funding period.

It is only since the 2014-15 broadbanding of programmes that the Department has begun collecting service areas in grant agreements.

Request 5: *The total number of providers who tendered for services; the total number of providers who applied for funding but were not successful in the recent round; the total number of unsuccessful providers who received funding in the previous four years (by program and by state).*

As at 26 March 2015, a total of 2,679 organisations applied for funding in the recent funding round. Of those, 1,986 organisations were unsuccessful in any funding round.

Of those organisations that were unsuccessful, 1139 are currently receiving funding from the Department.

Due to machinery of government changes, a number of programmes have been transferred to and from the Department. To provide a full analysis covering the previous four years of funding to unsuccessful organisations (*by program and by state*) the staffing resources required would be substantial, and the Department does not have capacity to divert additional staff for this purpose.

Request 6: *The categories of reasons why services were not granted tenders and an indication of how many services were unsuccessful in each category.*

DSS considered each proposal against eligibility requirements and equally weighted selection criteria as stated in the application pack. Only organisations which rated highly in all aspects of the selection criteria were identified as successful applicants.

Feedback summaries on applications for each round are available on the Department's website and can be accessed via the round specific page using the address below.

<https://www.dss.gov.au/grants/closed-funding-rounds>

Appendix List - *All data provided is as at 26 March 2015*

Appendix A: Honeycomb Diagram

Appendix B: Breakdown of 2014-15 Programme funding by State, by Outcome, by Activity

Appendix C: Breakdown of 2013-14 Programme funding by State, by Activity.

Appendix D: List of funded providers in 2014-15 by service area.

Appendix E: List of funding allocated to providers for 2014-15.

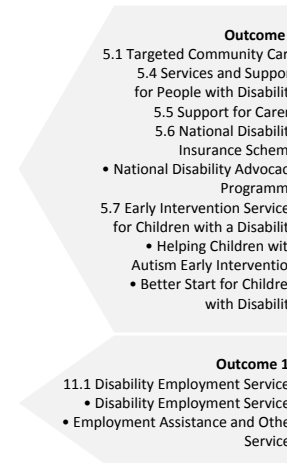

DSS Grants – A New Way of Working

The Department of Social Services is implementing a new way of working for grants, including new grant programmes that are better suited to what communities want and need. This is a single, coherent structure, streamlining 18 discretionary grant programmes into seven. Simplifying grant programmes will promote greater community input and flexibility to drive local solutions to local problems.

Former Programme Structure

Former Programme Structure

Outcome 2 Families and Communities

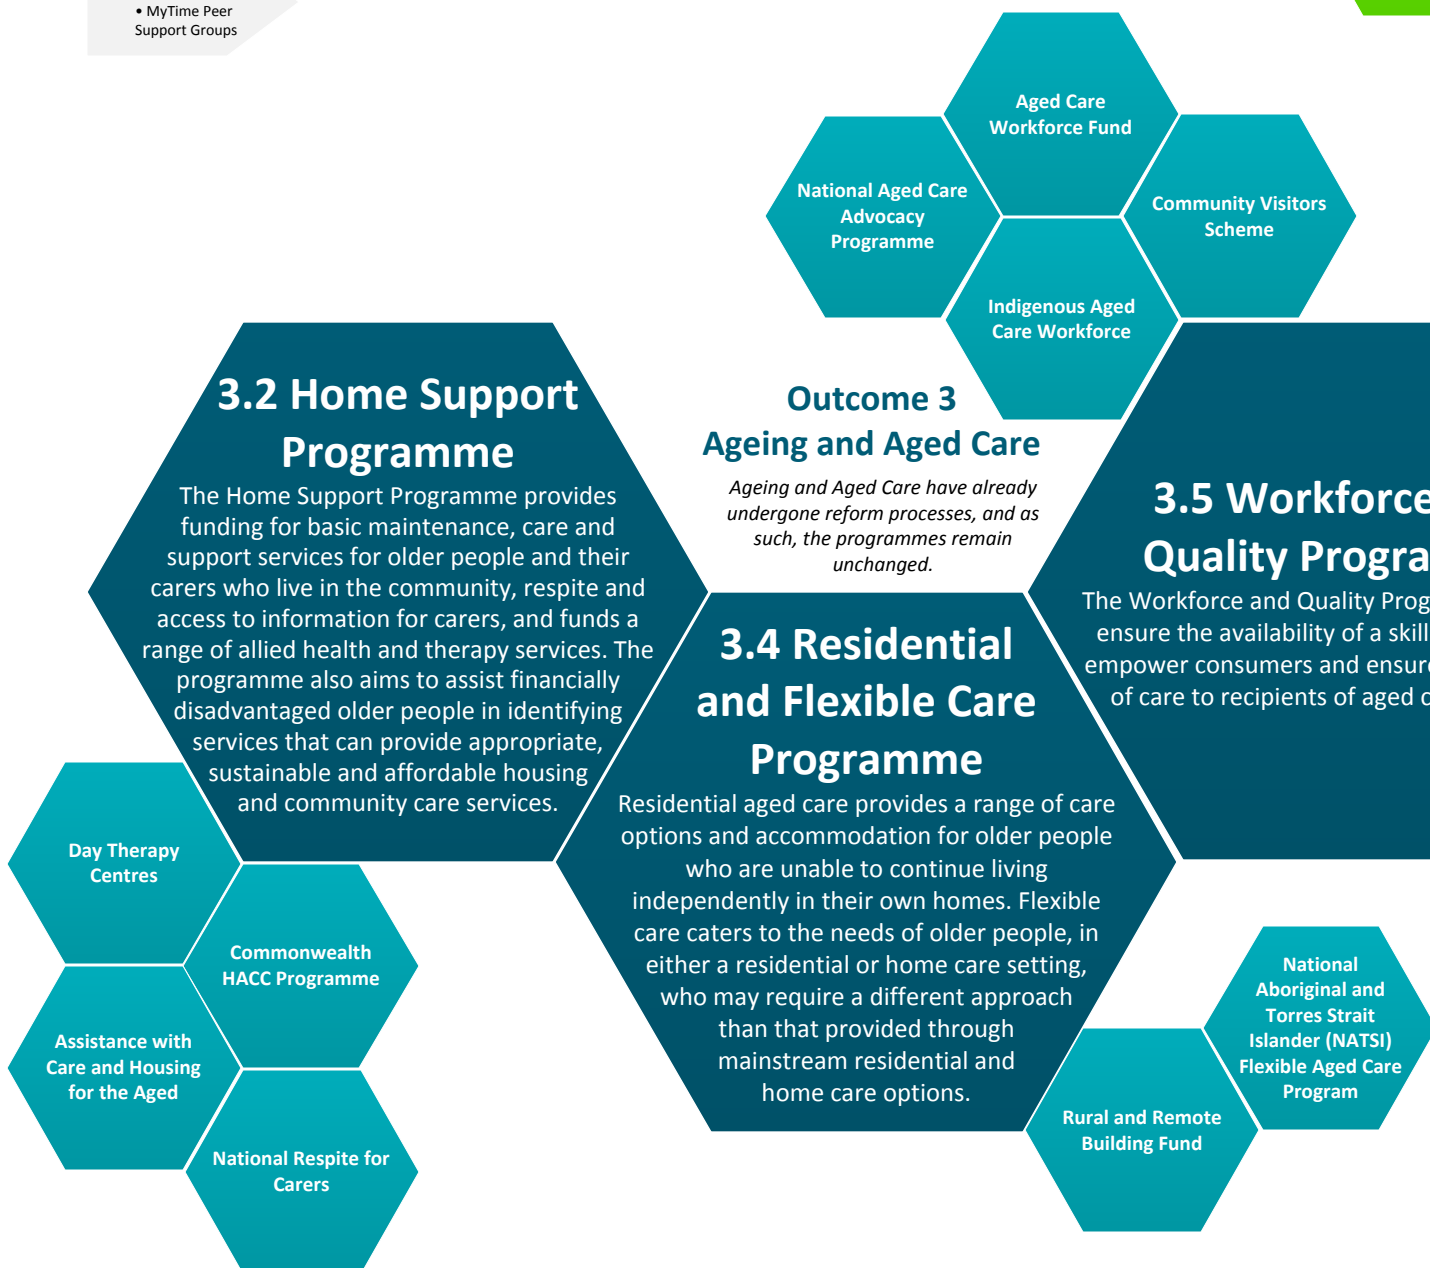

Outcome 5 Disability

Outcome 3 Ageing and Aged Care

Ageing and Aged Care have already undergone reform processes, and as such, the programmes remain unchanged.

Outcome 4 Housing

Former Programme Structure

For more information on the new way of working, visit the DSS grants website at dss.gov.au/grants

Breakdown of 2014-2015 Programme Funding by State, by Outcome, by Activity

Appendix B

Please note:

- Data extracted as at 26 March 2015.
- Data in this report is for executed grants only with funding in the 2014-15 FY. Figures include SACS (where applicable) and exclude GST.
- Funding is allocated to the state where the head office of an organisation is located. This may not always be where services are actually delivered.

State: Australian Capital Territory

Breakdown of 2013-2014 Programme by State, by Activity

Appendix C

Please note:

- Data extracted as at 26 March 2015.
- Data in this report is for executed grants only with funding in the 2013-14 FY, Figures include SACS (where applicable) and exclude GST.
- Funding is allocated to the state where the head office of an organisation is located. This may not always be where services are actually delivered.
- It is not possible to provide the output of programmes in historic data as programmes change and systems do not store historic information relating to programme trees.

State: Australian Capital Territory	
Activity	Total Funding 2013-14
A Better Start for Children with Disability - Education and Support	\$556,122
