

**Submission in Support of the Defence Amendment (Sexual Assault Prevention
Intervention Response Commission) Bill 2026**

To the Parliamentary Inquiry,

I strongly support the passage of this Defence Amendment Bill. As a former RAAF Corporal and current advocate for veterans' wellbeing, I believe these reforms—enhancing chain-of-command accountability, introducing trauma-informed practices, clearer suspension powers, mandatory discharges for perpetrators, and specialised health/DNA responses—will foster greater transparency and safety across the ADF.

These changes promise a safer future for all serving members by driving real responsibility and rebuilding trust. This bill is essential for protecting the next generation. I urge its swift approval.

Sincerely,

A black rectangular redaction box covering the signature of the author.
