

To All

I am a 26 year plus experienced life insurance adviser that has not had one single claim denied over my working life.

I have written in many times over the years when I feel it is necessary.

Today is one of those times that I plead with you to delay the ASIC 498 report until the broader enquiry into the Life Insurance sector is complete.

It is as simple as that.

Do politicians listen to experienced life-long adviserswell we will see what the come will be?

I am more than happy to discuss the above at any time.

I await your reply.

Kind Regards.....Max
