

The relisting of Islamic State East Asia as a terrorist organisation

Rod Pitcher

Submission to the Inquiry Into Review of the relisting of Islamic State East Asia as a terrorist organisation under the Criminal Code
Parliamentary Joint Committee on Intelligence and Security

Since organisations such as the Islamic State East Asia (ISEA) are a possible threat to Australians travelling in the area where this organisation operates, I feel that it behoves the Australian Government to take whatever action is required to protect Australian citizens either at home or abroad from the dangers presented by such terrorist groups.

I agree to my submission, including my name, being published on the Committee's and any other website as required, and would appreciate being notified of it.

The relisting of Islamic State East Asia as a terrorist organisation

Rod Pitcher

Having read all the appropriate information provided on the Committee's website, I agree with and support the proposal to relist **Islamic State East Asia as a terrorist organisation**.

Since organisations such as the Islamic State East Asia (ISEA) are a possible threat to Australians travelling in the area where this organisation operates, I feel that it behoves the Australian Government to take whatever action is required to protect Australian citizens either at home or abroad from the dangers presented by such terrorist groups.

From the information provided it is apparent that the ISEA are of possible danger to Australian travellers and have no regard for the lives or safety of anyone, including any Australian tourists, who may be caught up in their acts of terrorism.

Given the facts about ISEA, I must support any and all legislation to protect Australians from the acts of these people, including their relisting as a terrorist organisation in the *Criminal Code Act* and any update of that Act.
