(w) contact your local firearm manufacturer's public education department;
(x) contact your local firearm manufacturer's public outreach department;
(y) contact your local firearm manufacturer's public advocacy department;
(z) contact your local firearm manufacturer's public affairs department.
The Corporation Act is an Act of Parliament that provides a statutory framework for companies in the United Kingdom.

It establishes the rights, duties, powers, and restrictions of companies and their members, and sets out the procedures for company formation, governance, and dissolution.

The Act is divided into several parts, each covering a particular aspect of company law. These parts include:

- Part 1: Company Incorporation
- Part 2: Company Administration
- Part 3: Membership and Meetings
- Part 4: Directors and Officers
- Part 5: Financial Reporting
- Part 6: Insolvency

The Corporation Act also includes provisions for the regulation of company activities by government agencies, such as the Financial Conduct Authority (FCA) and the Registrar of Companies (RoC), and for the enforcement of company law through the courts.

In summary, the Corporation Act is a comprehensive piece of legislation that governs the creation, operation, and dissolution of companies in England and Wales.
