FADT Ref Committee - Sanctions against Russian Federation Inquiry

I was asked by the Chair of the FADT Ref Committee about my interaction with an officer of IFM Investors during the 18 February hearing. I could not recall the name when asked.

The person was Cath Bowtell, chairperson of IFM Investors. I don't know her personally, but I rang her mobile on 1 December 2025 to talk to her about IFM Investors' holding in VTTI and associated terminals that handle Russian-refined oil products. I thought the board should know the detail behind media reporting about IFM, perhaps with a view to influencing their corporate choices. We spoke for 41 seconds. She did not return my call.

Regards,

Mark Corrigan
