Subject: Submission to support extending government subsidy for Freestyle Libre for type 2 diabetics
Date: Thursday, 6 July 2023 3:15:06 PM

Dear Sir/Madam,

I humbly submit my support for the above.

I am a type 2 diabetic and was diagnosed at 60.

I am now 79 and 10 months old.

I started using freestyle libre 8 years ago.

It has totally changed my life because of the control I have of my diabetic medication, which keeps my HbA1c at between 6.8 and 7.2

I could not possibly achieve this without the constant readings I take with the libre reader.

I cannot give you a more candid explanation of what the libre has done for me.

I dearly hope that we will soon hear positively about a subsidy, in the near future.

Thank you.

Kindest regards,
Brian Moshal.
