To all Ministers involved including the PM

A big NO to this

Invasion of Australian privacy.

You can't make us operate like a bloody communist country. China is a sick evil race and its government needs to be over turned.

Nope we will all wear masks and wide brim hats to cover our faces.

You are the worse government we have ever had

You are selling this country off to the Chinese and any other high bidders.

If you bring this in YOU also need to be exposed to FR including all your family and kids.

Do I have anything to hide? No I don't but I don't want you record all my friggin moves with whomever I talk to and where ever I go.

Why don't you concentrate in reducing our debt, quit sending money overseas let everyone sort their own issues out.

This is an evil manipulative, exploitive thing you wish to do and I strongly object to it and that would include everyone I know.

DON'T DO IT

you won't get my vote or others I know

Wrong move Scomo

regards
Lyn
