

SUBMISSION TO SENATE & PUBLIC ADMINISTRATION COMMITTEE - NATIVE VEGETATION INTERFERENCE!

In 1992 Federal Minister Res. Kelly signed Australia into the United Nations Earth Summit in Rio, Brazil, which has become Agenda 21 & subsequently a control mechanism by a foreign, alienating body being used to seize sovereignty from Australians, their children & their grandchildren.

In 1994 at the Civic Town Hall in Newcastle NSW at the N.S.W. State Local Government Conference Minister Res. Kelly attended & launched Agenda 21 on behalf of the Labor Party.

Senator Robert Hill was also in attendance & adopted Agenda 21 on behalf of the Coalition Parties.

These actions have now led to the current destruction and dispossession of farmers & town residents alike through various bureaucratic processes.

I therefore refer the Committee to Section 44 of the Australian Constitution which says - "Any person who (i) is under any acknowledgment of allegiance, obedience, or adherence to a foreign power - shall be incapable of being chosen or of sitting as a senator or a member of the House of Representatives."

I further refer the Committee to Section 128 of the Australian Constitution Chapter VIII; as I do not recall a Referendum of the Australian people allowing Agenda 21.
