

TO WHOM IT MAY CONCERN.

My name is Anne Summers, and have recently been haveing work done on my teeth through the Dental scheam. i was in a childrens home as a child and through neglect, my health has never been good. i only had a few teeth left and they were broken and chipped and some needed fillings, through ill health of cancer i am unable to work so money has allways been a problem. im on a dissability pension. getting some work done in my mouth was way beyond my means . I had worn down what teeth i had left so i was in a lot of trouble with what i had left, and two front ones were badly infected. i have just had two removed and a plate put in the top and a partial bottom set. im sixty two years old and i dont know what will happen if this treatment stops. my Dentist is amazeing, i was so scared of going that most times i ended up in tears but she helped me to cope, allways singing when she worked on my mouth, you have no idea how that helped. please dont stop the dental scheam, i still need to have work done on what teeth i have left. There are so many more out in this world just like me, i shouldnt have to beg for help, i shouldnt have to be pleading to keep this going.

Thank you. Anne Summers.
