

I am writing to express my deep concerns in regards to the proposed “Cap and Cease Bill”. This bill intends to eliminate the difference between a fair Australian Immigration System and National Lotto. I am certainly sure that this bill doesn’t reflect true Australian values, doesn’t provide equal opportunities, and is entirely opposite to Australian Credibility of “Fair Go”. It also goes without saying, that there should always be a check-and-balance system in place, which, as a result, can not be seen over immigration system if this bill comes into effect.

To conclude, all of us love Australia, that’s why we chose to live in Australia for good whereas this bill would not only bring darkness in thousands of people’s life but would also affect Australia’s credibility world wide. I would like to appeal to the respected members of senate to disregard this proposed bill on the basis that we are not just the application numbers.
