

Subject: Our ABC
Date: Thursday, 8 September 2011

As an avid listener to ABC radio, viewer of ABC television and supporter of a public national broadcaster I would like to register my concern about the cuts and outsourcing of core programs at the ABC. I want the national broadcaster to provide programs that document and enlighten us in the Arts, culture, drama and believe that we need these skills inside the ABC to ensure the strategy and directions of the ABC take this important need into account.
