

Hi

Sir/Madam

Me with Thousand of International friends came here for the batter future. I spent 5 years in Australia and form the first day when I came here I never came back to my home country because I thought I be PR one day and after that go to meet my parents , my 70% friends have got citizenship who was studied with me and same time together we applied for PR but unfortunately I'm still waiting and now I got this situation which I have to go back to my home country and I don't have anything to do there.

So please think again before implement this.
