SPECIFIC QUESTIONS ON NOTICE

Question

Senator MARIELLE SMITH: You don't have to give me an answer now, but, if you're happy to take it on notice, I'd be interested in what that dataset collects—so what the ABS is able to determine from it. Obviously it can determine and capture this but if there's any more information you can provide on what you already collect, that would be useful.

Mr Hunt: There are a number of fields in AusTender. We can provide you with a list of what those fields are. There's about 30 of them, from my recollection. They're fields that the agency fills out when it's publishing details of the contract, not fields that suppliers fill out.
