

**Additional information from Ms Robyn Higgins, Centre for Creative and Cultural Research,
University of Canberra**

Senator Bilyk requested that I provide further information on notice about cultural research and leveraged funding supported by the small to medium sector. The research funded by the ARC i was referring to can be found

here: http://www.uws.edu.au/ics/research/ics_in_greater_western_sydney/projects/recalibrating_culture_production_consumption_policy.

In the transcripts I made an error and cited 2010 as the date it was granted. This is incorrect. Additionally due to a death in the research team there has been some delays and the results of this research will not be available until 2016 as the website suggests.
