Inquiry into Commonwealth Grants Administration

AGENCY/DEPARTMENT: DEPARTMENT OF INDUSTRY, SCIENCE AND RESOURCES

TOPIC: Program Design

REFERENCE: Question on Notice - Written

QUESTION No.: QoN - 1

1. When was the Modern Manufacturing Initiative established?
2. What was the initial funding allocation for the program?
3. What was the scope of the initial funding for?
4. Was additional funding subsequently added to the program?
5. What is the cost of administering the program?
6. Does the department have dedicated staff administering the program?
7. How many staff and at what levels? Please provide details for each year since the scheme was established.
8. Does the program have guidelines?
9. Were draft guidelines ever prepared?
10. Were the published guidelines ever changed?

ANSWER

1. The Modern Manufacturing Initiative was announced on 6 October 2020.
2. The initial funding allocation of the Modern Manufacturing Initiative was \$1.28 billion.
3. The \$1.28 billion Modern Manufacturing Initiative aims to stimulate business investment in the manufacturing sector by addressing barriers to scale and competitiveness for Australian manufacturers. It aims to build manufacturing capabilities and networks, lift productivity, create jobs, build global competitiveness, and boost the export potential of Australian manufacturers.

The Modern Manufacturing Initiative has three streams of funding:

- **Manufacturing Collaboration Stream:** supports larger and transformational projects including, for example a consortia of business and other organisations (such as research institutions, financiers, states and territories) to build economies of scale and create manufacturing ecosystems
 - **Manufacturing Translation Stream:** supports projects aiding the translation of research and good ideas into commercial outcomes
 - **Manufacturing Integration Stream:** supports projects that integrate Australian businesses into domestic and global value chains, or upgrading their existing position in a value chain
4. In the 2021-22 Mid-Year Economic and Fiscal Outlook:
 - \$1.7 million of unspent funding from the Cooperative Research Centres program was reallocated to the Modern Manufacturing Initiative
 - \$5.1 million of unspent funding from the Manufacturing Modernisation Fund program was reallocated to the Modern Manufacturing Initiative

In the March 2022-23 Budget:

- An additional \$250 million was allocated to the Modern Manufacturing Initiative

In the October 2022-23 Budget:

- \$250 million allocated to the Modern Manufacturing Initiative was returned to consolidated revenue
 - \$45.5 million of unspent funding from the Supply Chain Resilience Initiative was reallocated to the Modern Manufacturing Initiative, reflecting decisions taken by the former Government, but not included in March 2022-23 Budget
5. The 2020-21 Budget allocated \$20.1 million of departmental funding to administer the program across 5 years.
 6. Yes.

7. The level of staffing for the Modern Manufacturing Initiative has fluctuated as required at different stages of the grant lifecycle. At its peak in 2021-22, the Modern Manufacturing Initiative had approximately 30 staff working across the administration of all three streams of the program. During this period, multiple teams across policy and program divisions were managing the opening of funding rounds, assessment of applications and negotiation of grant agreements. The teams dedicated specifically to the Modern Manufacturing Initiative are supported by staff from the operational areas of the department including legal, IT and Finance, and at times by external service providers.

Currently, the department has 18 staff dedicated to the administration of the Modern Manufacturing Initiative which range from APS4 to SES Band 1.

8. Yes. All Grant Opportunity Guidelines are published on www.business.gov.au.
9. Yes, in line with the usual process for developing program guidelines.
10. No.

ANSWERS TO QUESTIONS ON NOTICE
Department of Industry, Science and Resources
Inquiry into Commonwealth Grants Administration

AGENCY/DEPARTMENT: DEPARTMENT OF INDUSTRY, SCIENCE AND RESOURCES

TOPIC: Grant Application Process

REFERENCE: Question on Notice - Written

QUESTION No.: QoN - 2

1. What was the application process for the grants?
2. Where was the application process outlined?
3. How many applicants applied for each round of grants?
4. Did the Department detail the electorate of each grant applicant as part of the review process?
5. What was the role of the independent Assessment Committee in the process?
6. Who sits on the independent Assessment Committee?
7. Were there selection criteria prepared when selecting the members of the Assessment Committee?
8. Can you please provide a copy of those criteria?
9. Did each member of the Assessment Committee meet all of the selection criteria?
10. What did the Department do to ensure that there were no conflicts of interest for members of the Assessment Committee?
11. Who assessed each grant application?

ANSWER

1. The Modern Manufacturing Initiative has three streams – Integration, Translation and Collaboration.

Applications were open to businesses who had projects that aligned to the National Manufacturing Priority Road Maps which were: Space, Defence, Medical Products, Recycling and Clean Energy, Food and Beverage and Resources Technology and Critical Minerals.

The application process is outlined in the Grant Opportunity Guidelines published at www.business.gov.au. There were thirteen separate Grant Opportunity Guidelines:

- One guideline for each of the six National Manufacturing Priorities under the Integration stream.
 - One guideline for each of the six National Manufacturing Priorities under the Translation stream.
 - A single guideline for the Collaboration stream.
2. The application process is outlined in the Grant Opportunity Guidelines published at www.business.gov.au.

3. Modern Manufacturing Initiative – Integration and Translation Round 1 had 765 applications.

Modern Manufacturing Initiative – Integration and Translation Round 2 had 432 applications.

Modern Manufacturing Initiative – Collaboration had 86 applications.

4. No.
5. The role of the independent Assessment Committee was to assess eligible applications against the Assessment Criteria detailed within the Grant Opportunity Guidelines and provide advice to the decision maker on which applications to support for funding. Further information on the role of the Assessment Committee is outlined in each of the published Grant Opportunity Guidelines at www.business.gov.au.
6. The independent Assessment Committees were comprised of industry experts and specialists with experience and expertise in manufacturing, venture capital, commercialisation, Artificial Intelligence/digital, finance, business development, together with technical experts with experience across the six National Manufacturing Priorities areas (Space, Defence, Food & Beverage, Medical Products, Resources Technology & Critical Minerals and Recycling & Clean Energy).
7. Assessment Committee members were chosen through a process of shortlisting and interviews, based on their professional experience and qualifications.

The following is a summary of the process:

- a. The department identified the knowledge areas that would be required to assess the applications.
 - b. Candidates were identified using existing networks from across the department.
 - c. Validation of their suitability for the role was conducted by reviewing their professional history and performing due diligence checks.
 - d. A shortlist resulted from a review of the pool of candidates against the knowledge areas. These candidates were invited by the department to participate.
8. No formal selection criteria were prepared.
 9. Assessment Committee members were chosen through a process of shortlisting and interviews, based on their professional experience and qualifications.
 10. Assessment committee members were provided with the Conflict of Interest Policy and Conflict of Interest Declaration and Acknowledgement documentation. Applications were only allocated to committee members where no conflict of interest was identified.

All members were asked to read the documentation and provide a completed conflict of interest declaration based on the provided list of applicant names prior to any applications being allocated to committee members for review or assessment.

All declared conflicts of interest were reviewed by the department, in some cases with the assistance of an externally appointed Probity Advisor, to assess the materiality of the conflict and appropriate course of action.

If a member was conflicted on any individual application, all information was withheld from that committee member, and they were removed from the assessment moderation meeting while the application was discussed.

11. The department assessed every application for eligibility against the eligibility criteria.

For the Modern Manufacturing Initiative Integration and Translation stream applications, each application was assessed against the assessment criteria by at least two members of the committee.

For the Modern Manufacturing Initiative Collaboration stream, each application was assessed against the assessment criteria by at least three members of the committee.

ANSWERS TO QUESTIONS ON NOTICE
Department of Industry, Science and Resources
Inquiry into Commonwealth Grants Administration

AGENCY/DEPARTMENT: DEPARTMENT OF INDUSTRY, SCIENCE AND RESOURCES

TOPIC: Grant Funding Decisions

REFERENCE: Question on Notice - Written

QUESTION No.: QoN – 3

1. For each round:
 - a. Who approved the final successful grant applicants?
 - b. Who informed applicants they were successful?
 - c. Who informed applicants they were not successful?
2. How long after the grant decisions were taken in each round were successful applicants informed?
3. How long after the grant decisions were taken in each round were unsuccessful applicants informed?
4. Did the Minister or their office have any role in assessing applications?
5. Did the Prime Minister or their office have any role in assessing applications?
6. Did the Minister or their office have any role in deciding the date that applicants were informed of successful or unsuccessful grant applications?
7. Did the Prime Minister or their office have any role in deciding the date that applicants were informed of successful or unsuccessful grant applications?
8. Please provide a list of all projects approved under the Initiative including:
 - a. Grant recipient
 - b. Project stream
 - c. Electorate grant recipient/project based in (where there are multiple venues, please provide details for each venue)
 - d. Grant amount
 - e. Date grant approved
 - f. Date grant announced
 - g. Date applicant informed of grant decision
9. Please provide a breakdown of the total value of grants announced in each round (broken down by round) since the MMI started, including the key dates for each round (when applications opened, closed and successful applicants notified).

ANSWER

1. For each round:
 - a) As outlined in the Grant Opportunity Guidelines, the Minister for Industry was the decision maker for the Modern Manufacturing Initiative Integration and Translation streams and the Prime Minister was the decision maker for the Modern Manufacturing Initiative Collaboration stream.
 - b) The department formally advised the applicant by email.
 - c) The department formally advised the applicant by email.
2. See Appendix A.
3. As is standard practice across all grant programs, unsuccessful applicants are notified of the outcome once all successful applicants are publicly announced. As there were six National Manufacturing Priority areas receiving funding from the three streams of the Modern Manufacturing Initiative, the notification process was staggered.
4. The Minister played no role in the merit assessment process undertaken by the Independent Assessment Committee.

The Minister was the decision maker for the Modern Manufacturing Initiative Integration and Translation streams.

For the Modern Manufacturing Initiative Collaboration Stream, the published Grant Opportunity Guidelines outlined the role the Minister for Industry had in providing advice to the Prime Minister on which applications were recommended for funding.
5. No.
6. Yes. The Government determines the timing of the public announcement of grants. The department informs the applicants once we have authority from the Minister to do so.

As per our answer to question 3 above, the timing of publicly announcing successful grants determines when the Department advises unsuccessful applicants.
7. As per our answer above, the Government determines the timing of the public announcement of grants. The Department has no visibility of any involvement by the then Prime Minister or his office.
8. See Appendix A.
9. See Appendix B.

Appendix A

Appendix B

Integration and Translation Streams

Round 1

Space

Milestone	Date
Applications open	19 February 2021
Applications close	22 March 2021
Date announced	8 July 2021
Value of Grants	\$13.9m

Medical Products

Milestone	Date
Applications open	26 February 2021
Applications close	29 March 2021
Date announced	8 July 2021
Value of Grants	\$36.4m

Resource Technology and Critical Minerals Processing

Milestone	Date
Applications open	4 March 2021
Applications close	1 April 2021
Date announced	22 July 2021
Value of Grants	\$49.5m

Food and Beverage

Milestone	Date
Applications open	29 March 2021
Applications close	27 April 2021
Date announced	12 November 2021
Value of Grants	\$35.7m

Recycling and Clean Energy

Milestone	Date
Applications open	7 April 2021
Applications close	5 May 2021
Date announced	18 November 2021
Value of Grants	\$44.6m

Defence

Milestone	Date
Applications open	31 March 2021
Applications close	28 April 2021
Date announced	3 December 2021
Value of Grants	\$26.7m

Round 2 – (all National Manufacturing Priorities were announced as opening for applications by former Minister Taylor on 9 December 2021)

Space, Medical Products & Resource Technology and Critical Minerals Processing

Milestone	Date
Applications open	13 December 2021
Applications close	14 January 2022
Date announced*	26 August 2022
Value of Grants: Space	\$19.3m
Value of Grants: Medical Products	\$25.7m
Value of Grants: Resources Technology and Critical Minerals	\$57.0m

Food and Beverage, Defence & Recycling and Clean Energy

Milestone	Date
Applications open	17 December 2021
Applications close	14 January 2022
Date announced*	26 August 2022
Value of Grants: Food and Beverage	\$58.8m
Value of Grants: Defence	\$24.6m
Value of Grants: Recycling and Clean Energy	\$109.2m

*please note Federal Election held 21 May 2022 which impacted announcement date

Collaboration

Milestone	Date
Applications open	11 August 2021
Applications close	9 September 2021
Dates announced	1 March -17 May 2022
Value of Grants	\$828.3m
