

**Australian Nursing Federation  
response to**

**Proof Committee Hansard  
Senate Finance and Public Administration References Committee hearing into  
Administration of health practitioner registration by the Australian Health Practitioner  
Regulation Agency**

With reference to items taken on notice:

- The Australian Nursing Federation State and Territory Branches have not recorded details of the number of calls received by members regarding initial or on-going issues with their registration renewal through the Australian Health Practitioner Regulation Agency. Relevant stories outlining particular issues were included in our written submission.
- It is the understanding of the Australian Nursing Federation that a KPI on the time for processing registrations is now occurring in all States and Territories.
