

Dear Sir/Madam,

I oppose the Migration Amendment (Visa Capping) Bill 2010 [Provisions].

I am an international student who just graduated from the University of Melbourne. From the first time I arrived in Australia, I began to love this beautiful country. When I heard about the Capping visa program, I think it unreasonable and unfair and I cannot believe such kind of thing can happen in Australia which is believed a fair and justice country.

During the three years I live and study in Australia, like other students, I went to class every day, talking with my lecturers and professors and discussing questions with my classmates. I also purchased my own car, driving to do part-time jobs during holidays and paid tax. I love Australian people as they are nice and kind. I feel I have already been a member of Australian society even though I haven't been granted with a permanent visa.

Here I just want to tell you what I am thinking when I hear about the capping visa program.

I totally oppose the Migration Amendment (Visa Capping) Bill 2010 [Provisions].

Sincerely yours,
