

Subject: ABC Privatisation
Date: Wednesday, 7 September 2011 2:11:06 PM

The ABC is a living, breathing national treasure. It must not be the dumbed-down by short term perceptions of the need to compete at the level of the lowest common commercial denominator. The ABC's continuing mission must be to provide intelligent unbiased commentary and information across all forms of media. The government is already in enough trouble. You don't want to be savaged by those of us who love the ABC as it is.

Kaye McFarlane
