

**National Radioactive Waste Management Amendment (Site Specification, Community Fund and Other Measures) Bill 2020  
[Provisions]**

**Public Hearing: 30 June 2020**

**Question taken on notice to AECOM**

**Question:**

Senator KIM CARR: How many scientists did you have actually working on this assessment?

**AECOM response:**

AECOM's project team that undertook the site characterisation and enabling infrastructure design and cost estimation works comprised more than 150 scientists, engineers, planners, drafters and cost estimators. The project team was drawn from AECOM's Australian and international operations, with individuals selected based on their specialist technical skills and experience.
