

Subject: Leave their land alone

I am a second generation born Australian land owner with 2 generations after me if I believed I was living on stolen land from these people as much as I would hate to loose my beautiful home I would give it back the government and white people have been stealing from the aboriginals for centuries it time you stopped. This and religion are the main reasons we have wars. It's time we thanked these wonderful people for sharing their country allowing us to live here and stopped destroying the beauty this wonderful place brings to us each day. You only have to look at old photos to see what the government and their greed has done to destroy this place, I have a beautiful picture of the green behind the gold less than 20yrs old the beauty has gone replaced by a concrete jungle the government approved this disgrace greed when are they going to stop and give the people their birth right beauty something our government doesn't appreciate the sad thing is I have read the history of some of the Goldcoast and the tribes that once dwelled here it's almost a novelty to see an aboriginal here let alone own a place. Don't start on the top end you will finally completely destroy what Australia stands for enough is enough remember we are all guest of their country
